

ERICK ERASMO REYES CRUZ

Senior Fullstack Developer

📞 8124278835 @ erick.erc.10@hotmail.com 🌐 <https://ingreyes-portfolio.vercel.app/> 📍 Monterrey, Nuevo Leon

SUMMARY

Senior Full-Stack Developer with 10+ years of experience building scalable enterprise systems across frontend, backend, and cloud. I specialize in translating complex business needs into resilient, high-performance solutions, with deep experience in architecture, API development, data modeling, and modern UI engineering.

I'm not just a developer—I proactively identify opportunities to simplify systems, improve delivery, reduce technical risk, and optimize infrastructure and development costs. I bring a business-minded approach to engineering, balancing performance, scalability, maintainability, and team efficiency.

I have delivered secure, mission-critical applications in healthcare and e-commerce, and I bring hands-on experience with React, Svelte, TypeScript, Node.js, Java, Python, FastAPI, Spring Boot, and Azure/GCP. My focus is on clean architecture, strong engineering standards, and products that perform reliably at scale.

KEY ACHIEVEMENTS

 Architectural Scalability & System Design Architected a high-concurrency microservices ecosystem using Spring Boot and Kafka, reducing system latency by 50% and supporting seamless horizontal scaling for e-commerce traffic spikes.	 Full-Stack Performance & Infrastructure Engineered a high-performance, cloud-native architecture for the 'Lura' platform, leveraging optimized GPU utilization and advanced caching strategies to achieve sub-second response times in a resource-intensive environment.
 Engineering Excellence & Code Quality Implemented a robust CI/CD pipeline and automated testing architecture that improved code reliability by 30%, significantly accelerating deployment cycles and reducing technical debt in mission-critical healthcare applications.	 Technical Leadership & Process Optimization Standardized full-stack development lifecycles and architectural patterns, resulting in a 40% gain in team velocity and ensuring cross-functional alignment between data modeling and frontend delivery.

EXPERIENCE

Senior Full Stack Developer

Tech Mahindra

📅 02/2025 - 2026 📍 Monterrey, México

- Frontend architecture: Led the development of complex UIs using Svelte, TypeScript, and Tailwind CSS. Built a custom, reusable TanStack Table component, significantly improving data-handling efficiency.
- Quality & testing: Standardized testing workflows by implementing Playwright for end-to-end user journeys and Vitest for unit testing, resulting in higher code reliability and fewer production bugs.
- Backend & cloud: Architected high-performance FastAPI services with Pydantic for rigorous data validation. Currently leading the transition too Azure to build a more scalable, cloud-native architecture.
- Technical leadership: Bridged the gap between business requirements and technical execution. Drove quarterly planning and led technical spikes, translating complex goals into clear Jira tasks that improved team velocity.

Senior Full Stack Developer

Adecco

📅 2023 - 02/2025 📍 Monterrey, México

- Architectural Leadership: Led development of 3 interconnected enterprise apps. Enhanced system data flow and scalability for high-volume operations.
- UI Engineering: Built dynamic, high-performance interfaces using React Hooks, ensuring seamless integration with Java backends and pixel-perfect fidelity to design specifications.
- Cloud & DevOps: Orchestrated application deployments on Google Cloud Platform (GCP) using Docker containers; automated CI/CD pipelines to improve deployment efficiency and ensure high system availability.

Senior Full Stack Developer

AgileEngine

📅 2022 - 2023 📍 Monterrey, México

- Accessibility Leadership: Acted as the Accessibility SME, leading a specialized team to implement global standards across enterprise platforms to ensure full regulatory compliance and inclusive user experiences.
- Automated Testing: Designed and maintained comprehensive test suites for React and Python environments, significantly reducing production regressions and stabilizing system releases.
- Improved platform performance by using accessibility tools to audit, identify, and resolve architectural bottlenecks.

Full Stack Developer

Ksquare

📅 2021 - 2022

- Full-Stack Implementation: Led the end-to-end development of a Learning Management System (LMS); utilized ReactJS and TypeScript for complex frontend architectures, supported by a custom Node.js server layer to optimize data processing.
- Strategic Collaboration: Partnered directly with Product Owners to refine application workflows and propose technical enhancements that directly improved user retention and system performance.

EXPERIENCE

Lead Web Developer

Accenture

2019 - 2020

- Project Orchestration: Directed the technical delivery of client user stories, maintaining 100% adherence to rigorous timelines and quality standards through disciplined execution in a Microservices-based environment.
- API Integration & Architecture: Architected complex REST APIs leveraging Spring Boot and Java for robust React interfaces; partnered with Business Analysts to ensure technical requirements aligned with core business objectives.

Frontend Developer

Accenture

2018 - 2019

- System Architecture & Scaling: Served as a foundational member of a core team that scaled from 7 to over 50 developers; helped define technical standards for a massive enterprise system built with React and Redux Sagas for complex state management.
- High-Volume Delivery: Engineered over 100 unique, high-interaction screens, utilizing advanced React patterns and mock data strategies to accelerate delivery ahead of backend development cycles.

Frontend Developer

Softtek

2016 - 2018

- System Modernization: Co-developed a mission-critical course enrollment system using PHP and Angular, significantly improving the legacy user experience
- Optimization: Resolved high-priority defects and performed technical maintenance for existing web applications to ensure 99.9% uptime

EDUCATION

Software Engineer

Universidad Autonoma de Nuevo Leon

2014 - 2019 Monterrey, Mexico

SKILLS

Frontend

Svelte React Next.js TypeScript Tailwind CSS TanStack HTML CSS JavaScript Angular

Backend

FastAPI SpringBoot Node.js PHP Java Python Express PostgreSQL Redis Maven

Testing & Tools

Playwright Vitest Docker GCP Azure GitHub GitHub Actions Git Jenkins

Databases

PostgreSQL MySQL MongoDB GraphQL SQLite

AI

Generative AI Fundamentals (Google Cloud Skills)

CERTIFICATIONS

Generative AI Fundamentals

Google Cloud Skills Boost
