

Erick Erasmo Reyes Cruz

Senior Fullstack Developer

Monterrey, Nuevo Leon

8124278835

erick.erc.10@hotmail.com

Professional Summary

Senior Full Stack Developer & Aspiring System Architect with 9+ years of experience building scalable, high-performance web applications. Expert in the JavaScript/TypeScript ecosystem (Svelte, React, Next.js) and robust backend architectures with FastAPI. Currently advancing a System Architect path with a focus on Cloud Infrastructure (Azure) and Artificial Intelligence. Certified in Generative AI and committed to engineering resilient, cloud-native solutions.

Education —

Software Engineer
Universidad Autonoma de
Nuevo Leon

2014 – 2019

Technical Skills —

Frontend: Svelte, React,
Next.js, TypeScript, Tailwind
CSS, TanStack Table.

Backend: FastAPI, Node.js,
PHP, Java, Python,
PostgreSQL.

Testing & Tools: Playwright,
Vitest, Docker, GCP, Azure
(In progress), Git. AI:
Generative AI
Fundamentals (Google
Cloud Skills).

Work Experience

February 2025 - Present

Senior Full Stack Developer • Tech Mahindra

Frontend Innovation: Leading development with Svelte, TypeScript, and Tailwind CSS, including a custom headless Table component built from scratch using TanStack Table.

Quality & Testing: Implementing comprehensive E2E tests with Playwright and unit tests with Vitest for all new features.

Backend & Cloud: Designing REST APIs with FastAPI and migrating models to Pydantic; exploring Azure integration patterns for future system architecture.

Agile: Driving quarterly planning through Jira stories and technical Spikes.

2023 – February 2025

Senior Full Stack Developer • Adecco

Architectural Leadership: Spearheaded the end-to-end development of a suite of three interconnected enterprise applications, optimizing data flow and system scalability.

UI Engineering: Engineered dynamic, high-performance user interfaces using React Hooks, ensuring seamless integration with Java backends and high-fidelity design mocks.

Cloud & DevOps: Orchestrated application deployments on Google Cloud Platform (GCP) utilizing Docker containers, streamlining the CI/CD pipeline and ensuring high availability.

2022 - 2023

Senior Full Stack Developer • AgileEngine

Accessibility SME: Led a specialized team in implementing global accessibility standards across multiple enterprise-scale platforms, ensuring full regulatory compliance and inclusive UX.

Automated Testing: Developed and maintained comprehensive automated test suites for both React frontends and Python backends, significantly reducing production regressions.

Technical Quality: Utilized advanced accessibility auditing tools to identify and resolve complex architectural bottlenecks across the platform.

2021 – 2022

Full Stack Developer • Ksquare

Full Stack Implementation: Owned the delivery of complex frontend architectures using ReactJS and TypeScript, backed by a custom Node.js server layer to improve data processing efficiency.

Strategic Collaboration: Partnered directly with Product Owners to refine application flows and propose technical enhancements that improved user retention and performance.

2019 – 2020

Lead Web Developer • Accenture

Project Orchestration: Directed the technical delivery of client user stories and tickets, maintaining 100% adherence to rigorous delivery timelines and quality standards.

API Integration: Architected and consumed complex REST APIs for React interfaces, coordinating with Business Analysts to ensure technical requirements met business goals.

2018 – 2019

Frontend Developer • Accenture

Team Scaling: Served as a foundational member of a core project team that scaled from 7 to over 50 UI developers, helping define the project's technical standards.

High-Volume Delivery: Engineered over 100 unique, high-interaction screens in ReactJS, utilizing mock data strategies to accelerate frontend delivery ahead of backend completion.

2016 – 2018

Frontend Developer • Softtek

System Modernization: Co-developed a mission-critical course enrollment system using PHP and Angular, significantly improving the legacy user experience.

Optimization: Resolved high-priority defects and performed technical maintenance for existing web applications to ensure 99.9% uptime.

CERTIFICATIONS

Generative AI Fundamentals | Google Cloud Skills Boost (2025).

Cloud Architecture Path (Azure) | In Progress – Expected 2026.

Accessibility SME Training | Specialized certification for enterprise-scale inclusivity.
